

“A picture is worth a thousand words,”

especially if they are the next generation of 3D and 4D ultrasound imaging. Many of you have viewed Shari Richard’s incredible 1990 edition of *Eyewitness to the Earliest Days of Life* and *Window to the Womb*. Now, Shari will take you on a fascinating journey through all 38 weeks of pregnancy seeing the mirror image of the babies with the cutting edge digital ultrasound technology. Separate chapters allow viewers to select specialized presentation to accommodate your audience and time.

Subtitle Chapter: Contains soothing background music with fascinating visuals and descriptive subtitles which provides an overview of the key features of human development. Perfect for fairs, seminars and waiting rooms. Available in both English and Spanish. 15 min.

Class Room Chapter: In a High School presentation, Shari gives a complete description of all three trimesters. This version will entertain and delight viewers as you share in the interaction of the students as they travel the fascinating journey in the womb. An excellent resource for schools, hospitals and Pregnancy Centers. 20 min.

Additional chapters include: The 25 Year Journey of Sound Wave Images, favorite images of 3D & 4D babies set to music, and Shari’s music video of her boys *You Are a Masterpiece*.

Sound Wave Images — what they are saying...

“Shari’s first video, ‘Eyewitness,’ captured the best 2-D images in the 90’s that I had seen. Now, with the ‘Next Generation 2’ version, she displays 3-D and 4-D images of early 1st trimester twins and features the development of the living embryo and fetus in amazing new detail through all nine months of gestation.” — Alexander F. Metherell, M.D., Ph.D. Radiologist

“Wow, it’s just amazing to see the babies yawn and stick out their tongues. My favorite was the “Baby Kiss and Peace Sign’.” — Student

Shari Richard, RDMS
Founder of SWI

“Shari’s video is the most powerful and effective tool used in our Pregnancy Center to educate on human development. I recommend it for every Pregnancy Center and school.” — Eleanor Ruder, Director PCC
